SUMMARY

I am a computer science student skilled in hardware troubleshooting and competitive cyber defense. I have a proven track record fixing tech issues and working well in teams. I want to use my certifications and IT skills to help the district set up and refurbish Chromebooks.

SKILLS

- **Calm under pressure**
- **Dependable**
- **Detail-oriented**
- **Operating Systems:** Windows OS, Linux (Foundational)
- **IT & Cybersecurity:** Hardware Diagnostics & Troubleshooting, Network Architecture Basics, Vulnerability Assessments, Endpoint Security, Threat Identification, System Hardening
- **Software & Productivity:** Microsoft Excel, Google Workspace, DaVinci Resolve, Unity

EDUCATION & COURSEWORK

- **High school**(Class of 2028)
 - **Focus:** Computer Science Skill Center
 - **Credentials:**
 - Cisco Computer Hardware Basics (June 2026)
 - Cisco IT Essentials (June 2025)
 - CompTIA A+ Certification (In Progress - Expected 2027)
 - **Relevant Coursework:** Cisco Ethical Hacking (Modules 1–4: Intro to Cyber Defense, Network Attacks, and Endpoint Security)

HONORS AND ACTIVITIES

- **Member, CyberPatriot Club** | Sept 2025 - Present
 - **1st Place in State & 4th Place Nationwide** | CyberPatriot Cyber Defense Competition, Feb 2026
- **2x National Junior Honor Society** | Middle School, 2022-2024

PROFESSIONAL EXPERIENCE

- **Corn's Enterprises LLC, 2021** | Tech Consultant & General Laborer - Present
 - Provided technical troubleshooting and support to optimize business operations.
 - Assisted with general labor and inventory tasks, ensuring a safe and organized work environment.

PROJECTS

- **Honden Deur Cleaning** | Tradeshow of Innovation, Sept 2025 – May 2026
 - Developing an innovative, multi-flap pet door system designed to automatically clean and groom pets during transit.
- **Connect 4 (School Themed)** | Mini Design Project , Nov 2025
 - Collaborated in a team environment to design and construct a custom-themed tactical board game model, focusing on rapid prototyping and structural design.
- **The T.R.A.P Net** | Tradeshow of Innovation, Sept 2024 – May 2025
 - Designed and prototyped a retractable, under-bridge netting system engineered to capture and remove river debris.

- **Voidline** | Online Minecraft Bedrock Edition Client voidline.xyz, - Present
 - Designed the prototype user interface for the new Voidline Launcher, improving onboarding flow and reducing user confusion during setup
 - Served as Head of Support, managing a community of 20k+ players, resolving technical issues, and gathering feedback to drive product improvements.
